### **Celebrating A Life Should Be As Unique As The Individual**

Bryan-Braker realizes the value of personalization and its value to the families we serve. Celebrating a life lived through gatherings that allow more family participation and stories about how we remember our loved one are much more meaningful. We encourage families to bring in photographs of different times throughout their life doing what they loved to do; for hobbies, fun, travel or just being with family and friends. Photos help us build a fuller picture of the person's life, photos with friends and at family gatherings, times that made us laugh and times that made an impact in other people's lives. Using full color customized memorial folders, slideshows and DVD video tributes will create a unique and memorable service. Our talented staff will help you formulate a plan to best celebrate your loved one's life and then let us take care of all the details.

### **Technology at The Leading Edge**

To help deliver this service we have invested in state of the art audio/visual equipment and have well trained staff that can scan a box of photo memories and turn them into a 6 to 10 minute video production that is a beautiful mosaic of your loved one's life. This production would be accompanied by music and is a beautiful tribute to a life lived. Additional copies of the production can be gifts to family and friends. We can create slideshows that can be played during the visitation or just prior to the service. Also, we can webcast the service in our chapel so loved ones around the world may be a part of the service as well.

**We are honored to provide US Veterans, Police, and Fire discounts.**
