Bryan-Braker Funeral Home FF
1850 West Texas St., Fairfield, CA, US,
94533

Comments

“ I send my deepest and most sincere condolences to Ruth, Donna, Lawana, George III, and the entire Cager family on the loss of their companion, dad, and loved one George Nathaniel Cager Jr. I am honored to have known George as a friend, and to have served with him in the United States Air Force, specifically at Andersen AFB, Guam, from 1966 to 1968. As a boy among men, for George was nine(9) years older than I, I was referred to as "Youngblood". "Cage", as we called him, was as unpretentious, and as non-judgemental, and as pleasant a person, that I had ever met, everyone loved "Cage". When Ruth joined him, and they moved off base to DeDeDo village, their New Orleans hospitality rang like a church bell, and we came coming. Their home was our home. Ruth quietly said to me that she simply followed the "golden rule" to do unto other as you would have others do unto you. My knuckleheaded antics of youth were graciously handled in such a way that many years later I realized what a wonderful home like experience I had been exposed to in the midst of the Operation ArcLight B52 Vietnam Support our units were supplying 24 hours a day 7 days a week. My thanks to George, and to Ruth is eternal, they helped to shape a boy into a better man, a better father, and a better human being. Each one of my children learned to swim as a "Water Baby" with their dad(me) at the local Y, thank you George, but that is another story. God bless you all, forever. "YoungBlood"
